

CAN | Cannabis Test Kit

The SwabTek Cannabis Test Kit is a single-use spot-test designed for use in screening for CANNABIS COMPOUNDS in any sample, or on any surface. The test is capable of identifying the presumed presence of cannabinoids in very small quantities, with a level of detection as little as 6 µg in mass. The test has been validated by a third-party lab, testing to the standards established by the National Institute of Justice, at a 0.0% false positive rate for the following:

Cannabis Compounds

*THC, CBD, CBC,
Synthetic Cannabinoids*

Cannabis Products

*Plant, Extracts,
Edibles, Oils*

SwabTek's unique form-factor helps to ensure proper sample collection and reduces the user's risk of exposure during testing.
